

October 15th, 2021

Dear Community,

Two years ago, Friends of North Canyon, the fundraising entity for North Canyon Medical Center, began the journey of raising \$180,000 to build a chapel on the hospital campus. Today, we wanted to share our progress on the project and ask for your help with the final fundraising.

When we started the Chapel Construction Project, we did so believing it would be a welcome addition for patients and families receiving care at the hospital. As word started to spread about the chapel, we were humbled by the level of support we received and are excited to announce that we have raised \$160,000 for the project.

While this number brings great joy, we also had to face the reality that construction costs have increased an average of 30% since the goal of \$180,000 was set two years ago. In order to account for this increase, we have had to adjust our fundraising goal to \$234,000; leaving us with \$74,000 left to raise before we break ground in the spring of 2022.

Today we are asking for your support in helping us raise the remaining \$74,000. A project like this is only made possible through the generous donations of community members like you. Please know that every donation matters, no matter the amount. You will see on the enclosed flyer that each donation will be acknowledged on the donor wall; creating a lasting legacy for every donor.

If you have any questions or would like to discuss the project, please contact any of the board members listed below. We look forward to visiting with you, taking you on a tour of the chapel location, and answering any questions or concerns you may have.

Warm regards,

Friends of North Canyon Board of Directors
